PAPER OR DIGITAL?

We are asking for continued feedback about receiving paper copies of the Canister. We currently spend \$2,000+ per year on mailing and are exploring ways to serve our members at a lower cost by reducing copies being mailed. This money can be used to fund stewardship efforts or other vital Catskill projects, and is environmentally beneficial, but we also want to know our members needs and preferences. If you very much want to receive a paper *Canister* in the mail and have not been in touch with Dave White members@catskill-3500-club.org 315 853-1070 or Maria Bedo-Calhoun, firstvp@catskill-3500-club.org 917-881-9272 , please do so.

FROM THE EDITOR

Because of the large number of new members, I have decided to change the layout of this Canister Issue. Congratulations to all of our new Life, Winter and Regular members!

SPATHE AND SPADIX THE PRESIDENTS COLUMN

Ever read the club's mission statement? Just in case you haven't, here it is: The mission of the Catskill 3500 Club is *1) to provide an incentive for hikers to climb those Catskill Mountain peaks in excess of 3,500 feet in height. 2) To promote the interests and bringing together socially those persons who are engaged or interested in hiking in the Catskill Mountains. 3) To provide such persons with opportunities for engaging in such hiking and social activities. 4) To do any other act or thing incidental to or connected with the foregoing purposes or in the advancement thereof, but not for the pecuniary profit or financial gain of its members or officers, except as permitted under Article 5 of the Not-For-Profit Corporation Law. 5) To promote conservation in the Catskill Mountains.*

I mull over our mission statement often. Sure, we fulfill our mission, but let's face it: peak baggers tend to be driven. Goal-oriented, if you will. I'm always asking myself - how can we do more? Where do we need to improve?

Our hike schedule is robust. Our hike leaders do a wonderful job, not only leading the hikes, but sharing the knowledge and wisdom, tips and tricks, and best practices that help both brand new and experienced hikers hone their skills in the forest. We throw a mid-winter party each year, offering our members and aspirants the opportunity to socialize as well as hike together at the Winter Weekend. We're forming a search and rescue team, which will be a great opportunity for club members to give back to the hiking community, learn new skills, and forge new friendships. And we actively promote conservation through our participation in the Catskill Park Coalition, our support of the NYNJTC's Summit Steward program, our donations to multiple environmental organizations, our promotion of hikeSafe and Leave No Trace principles, and our commitment to volunteering by maintaining trails. We do indeed fulfill our mission, actively and enthusiastically.

Sometimes, though, while I'm out wandering, I wonder how well we're balancing conservation efforts with the promotion and support of hiking. Have we struck a good balance? I also wonder if our social events are hitting the mark - are we reaching a broad enough cross section of our members? Are there other types of events we should be hosting, or other activities we could undertake? What types of social events would you attend? What types of social events or activities would get you to leave the house? What types of conservation activities do you think the club should be participating in?

Over the 50+ years of the club's existence, the mission has evolved, and it will continue to do so long after my turn as president. With this spring season, my term hits the halfway point. I look at the past year and what we've accomplished and consider the year to come and what could be achieved. I'd love to hear from you. Email me at president@catskill-3500-club.org. I'd love to have your input as I head into year two.

Heather

A Note From Our Treasurer

Ever since I've been treasurer, I've thought of starting an occasional column just to point out the wonderful things you do to promote one of the goals of our club, the conservation and support of the trails and the lands we love. We, as a club, get donations through contributions above and beyond the cost of membership, and occasionally by way of directed contributions throughout the year. The club sincerely thanks all of you who contributed any amount to support our mission.

For example, for 2017, we received a total amount of \$12,068.82 through aspirant and membership dues. In the same year, we received \$10,306.00 from donations above the cost of membership. As you can see, it almost equals the dues. Add this to the reduced printing and mailing costs of maintaining the Catskill Canister newsletter, we've increased our support of the Catskills by seeding money for the Catskill summit stewards by way of the NYNJ Trail Conference (NYNJTC) and donating to more organizations such as the Catskill Center for Conservation and Development (CCCD) as well as the Catskill Heritage Alliance.

So, in the idea of transparency and to say thanks for your continued support, I felt that we should state where your donations go. We also would welcome your recommendations and ideas to consider for future support. As we continue to strive to bring in money from reduced operating costs, we hope to be able to support all the great organizations that help manage the Catskills.

This is where your money went (2017):

Catskill Heritage Alliance	\$500.00
Adirondack Mountain Club (ADK)	\$5500.00
CCCD	\$1000.00
Summit Steward Program via NYNJTC	\$5000.00
TOTAL	\$12000.00

The donation to the ADK organization is split between \$2000 for the professional trail crew which makes routine trips to the Catskills and \$3500 to go towards advocacy for the trails in NY, including the Catskills.

Speaking of dues —

2018 dues are now due. You may pay online, at <http://catskill-3500-club.org/dues.php> or snail mail a check to David White, Membership Chair, 28 Mulberry St. Clinton, NY 13323. Make checks payable to "Catskill 3500 Club." Aspirants should renew with Mike Dwyer, Aspirant Chair, 237 April Lane, Bayport, NY 11705.

Keep your eyes peeled and your dogs leashed: spring is fawn season!

Conservation Corner

The following information provided by Bill Rudge, NYS DEC Region 3 Natural Resources Director, concerns overuse and abuse of the Peekamoose Blue Hole. Thanks to Bill for this information.

DEC proposes to implement a day-use permit requirement for the Peekamoose Blue Hole. NY Codes Rules and Regulations Part 190.35(i): "From May 15th through October 15th annually on Saturdays, Sundays and holidays, no person shall enter the Peekamoose Valley Riparian Corridor east of the County Route 42 bridge crossing the Rondout Creek, an area that includes that portion of the Rondout Creek known as the Blue Hole, except under permit from the Department."

Permits would be issued through the Reserve America system, as DEC campground reservations are made. Initially the Department would issue up to 40 permits per day, each permit allowing entry for up to 6 individuals (including children), allowing for a maximum of 240 people to access the Blue Hole each day. The visitor must obtain a permit online (Reserve America) and print or download a copy of their permit from the online reservation system. Permits will be issued up to a week in advance, and no later than one day in advance. Permits will not be issued on site. There will be no cost to the customer for the permit; the agency will pay administrative fees for all permits issued.

We are working with our partners at the Catskill Center and the Neversink-Rondout Stream Management Project to provide "Blue Hole Stewards" at the Blue Hole from Memorial Day Weekend through Labor Day Weekend. These stewards would be seasonal employees of the Catskill Center trained in "Leave No Trace" backcountry ethics who would greet visitors, educate them on the importance of practicing leave no trace principals to minimize their impacts, as well as the special regulations in place to protect the Blue Hole.

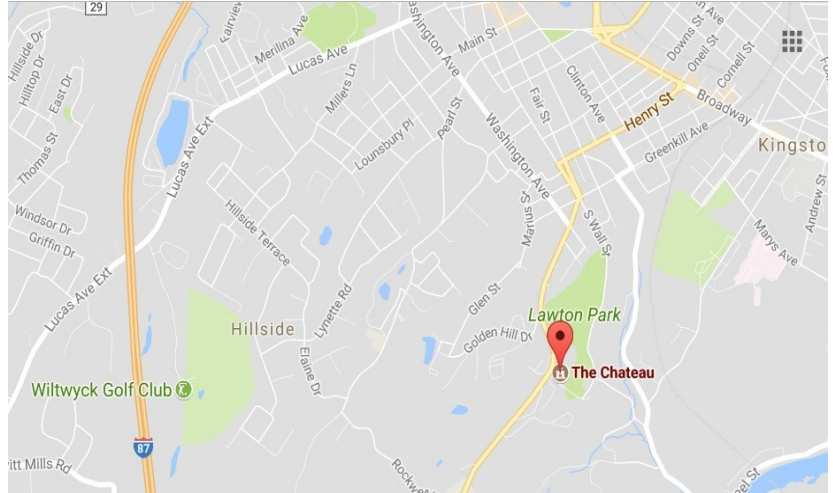

DEC Forest Rangers and Environmental Conservation Officers will be enforcing the regulations. DEC will seek public comment on the day-use permit proposal during a public comment period to be announced in the Environmental News Bulletin as well as area newspapers and outreach to stakeholder groups. The new regulation will be posted on DEC's web site and be widely announced via press release and social media.
